

COVID-19 Vaccine and Infusion Code Fee Schedule

The Centers for Medicare and Medicaid Services (CMS) have announced new Healthcare Common Procedure Coding System (HCPCS) codes for healthcare providers to use when treating patients for the novel coronavirus (COVID-19). Additionally, The American Medical Association (AMA) has announced new vaccine-specific Current Procedural Terminology (CPT®) codes to report immunizations for the novel coronavirus (SARS-CoV-2). In response, the Medicaid fee-for-service (FFS) program is reimbursing for these codes at 100% of the Medicare reimbursement rate. The following fee schedule is a summary of the codes, their descriptions, their effective dates, and the FFS reimbursement rate.

NOTE: Institutional providers should bill for vaccine and vaccine administration on a professional claim to receive reimbursement.

If you have any questions about the contents of this fee schedule, please contact Christa Smith at christa.smith@maryland.gov.

For questions related to MCOs and Self-Referred Services, please contact Pam Williams at pam.williams@maryland.gov.

Revision Date: 5/18/2021

COVID-19 Vaccine and Infusion Codes Fee Schedule

Vaccination products will be made available to providers at no cost by the federal government for the foreseeable future; therefore, only the cost of administration will be reimbursed. FFS Medicaid intends to reimburse for vaccine administration in alignment with the Medicare rate.

Vaccine Products				
CPT Code	Labeler Name	Description	Effective Date	FFS Rate
91300	Pfizer	Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted, for intramuscular use	12/11/20	\$0.00
91301	Moderna	Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage, for intramuscular use	12/18/20	\$0.00
91303	Janssen	Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, DNA, spike protein, adenovirus type 26 (Ad26) vector, preservative free, 5x10 ¹⁰ viral particles/0.5ml dosage, for intramuscular use	2/27/2021	\$0.00

Vaccine Administration					
CPT Code	Labeler Name	Description	Effective Date	FFS Rate (Claims with DOS through 3/21/2021)	FFS Rate (Claims with DOS on or after 3/22/2021)
0001A	Pfizer	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; first dose	12/11/20	\$16.94	\$40.00
0002A	Pfizer	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; second dose	12/11/20	\$28.39	\$40.00
0011A	Moderna	Immunization administration by intramuscular injection of Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; first dose	12/18/20	\$16.94	\$40.00
0012A	Moderna	Immunization administration by intramuscular injection of Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; second dose	12/18/20	\$28.39	\$40.00
0031A	Janssen	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV2) (coronavirus disease [COVID-19]) vaccine, DNA, spike	2/27/2021	\$28.39	\$40.00

		protein, adenovirus type 26 (Ad26) vector, preservation free, 5x10 ¹⁰ viral particles/0.5 mL dosage, single dose

COVID-19 Infusion Therapy

On November 9, 2020, the U.S. Food and Drug Administration issued an Emergency Use Authorization (EUA) for the investigational monoclonal antibody therapy, bamlanivimab, for the treatment of mild-to-moderate COVID-19 in adults and pediatric patients with positive COVID- 19 test results who are at high risk for progressing to severe COVID-19 and/or hospitalization.

Bamlanivimab will be made available to providers at no cost by the federal government for the foreseeable future; therefore, only the cost of administration will be reimbursed. The Department intends to set the FFS reimbursement rate at the same rate as Medicare.

Bamlanivimab may only be administered in settings in which health care providers have immediate access to medications to treat a severe infusion reaction, such as anaphylaxis, and the ability to activate the emergency medical system (EMS), as necessary. Additional information regarding limitations for authorized use can be found in the Centers for Medicare and Medicaid Services (CMS) [guidance](#) and the [fact sheet issued by the manufacturer](#).

Monoclonal Antibodies and Administration					
HCPCS Code	Labeler Name	Description	Effective Date	FFS Rate (Claims with DOS through 5/13/2021)	FFS Rate (Claims with DOS on or after 5/14/2021)
Q0239	Eli Lilly	Injection, bamlanivimab, 700 mg	11/10/20-4/16/2021	\$0.00	N.C
M0239	Eli Lilly	Intravenous infusion, bamlanivimab-xxxx, includes infusion and post administration monitoring	11/10/20-4/16/2021	\$309.60	N.C
Q0243	Regeneron	Injection, casirivimab and imdevimab, 2400 mg	11/21/20	\$0.00	\$0.00
M0243	Regeneron	Intravenous infusion, casirivimab and imdevimab includes infusion and post administration monitoring	11/21/20	\$309.60	\$450.00

Revision Date: 5/18/2021

M0244	Regeneron	Intravenous infusion, casirivimab and imdevimab includes infusion and post administration monitoring in the home or residence	5/21/2021	N/A	\$750.00
Q0245	Eli Lilly	Injection, bamlanivimab and etesevimab, 2100 mg	2/9/2021	\$0.00	\$0.00
M0245	Eli Lilly	Intravenous infusion, bamlanivimab and etesevimab, includes infusion and post administration monitoring	2/9/2021	\$309.60	\$450.00
M0246	Eli Lilly	Intravenous infusion, bamlanivimab and etesevimab, includes infusion and post administration monitoring in the home or residence	5/21/2021	N/A	\$750.00
